

Federal Communications Commission

Hearing Aid Compatibility Status Report (FCC Form 655)

Reporting Period: January 1, 2013 - December 31, 2013

Filing Confirmation Number: 0006095770

Filing Deadline: January 15, 2014

FRN: 0010045128

Filing Date: 01/11/2014 05:42 PM

General Report Information

Type of Company

Service Provider

De Minimis Exception

Did you offer any handsets to subscribers in the United States during the reporting period? Yes

Have you been offering handsets in the United States for at least three years prior to the end of the reporting period? Yes

Date that you began offering handsets in the United States

Are you a small entity? Yes

Were you a small entity at any time during the three years prior to the end of the reporting period?

Date that you ceased to be a small entity?

Company Information

Company Name: Lightyear Network Solutions, LLC

Brand Names: Motorola
HTC
Samsung
Sanyo
LG

PO Box:

Street Address: 1901 Eastpoint Parkway

City: Louisville

State: KY

Zip Code: 40223

Contact Name: Linda Hunt

Contact Phone: (502) 410-1531

Contact Fax: (502) 515-4138

Contact Email: linda.hunt@lightyear.net

Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? No

Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that are capable of voice communication over any air interface or frequency band that does not have hearing aid compatibility technical standards under ANSI C63.19-2007 include the required language disclosing that the handset has not been rated for hearing aid compatibility with respect to such operations? Yes

Explain:

Do all hearing aid-compatible handsets that the manufacturer also tested and found not to meet hearing aid compatibility requirements under ANSI C63.19-2011 for one or more operations that are not covered under ANSI C63.19-2007, include language informing users by clear and effective means that the handset does not meet the relevant rating or ratings with respect to such operation(s)?

Yes

Explain:

Do all handsets that are capable of use for Voice over LTE, and that were certified for inductive coupling capability under ANSI C63.19-2011 without being tested for inductive coupling capability over VoLTE, include language disclosing that they were not tested with respect to this operation?

No

Explain: Lightyear does not offer voice over LTE

Do all handsets that meet the criteria for an M3 rating by allowing the user to reduce the maximum power for GSM operation in the 1900 MHz band include the required disclosure?

Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? No

Website address:

Explain: During the period from January 2013 through September 27, 2013, Lightyear's website included the levels of functionality that each hearing-aid compatible model fell under. However, after September 27th, the website was taken down due to the fact that all the assets of Lightyear had been sold to Birch Communications, Inc., and Lightyear ceased all operations. The FCC has approved of this asset transfer.

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: During the period in 2013 when Lightyear was providing wireless service Lightyear maintained a public website displaying its entire selection of handsets including those that were HAC compliant. The sales staff was able to assist all existing and prospective customers looking for an HAC compliant handset. Handset packaging inserts or operation manuals also provided this information. For newer WiFi capable handsets customers were informed which handsets had been tested and rated for use with hearing aids but that there may be some newer wireless technologies used in these phones that had not been tested yet for use with hearing aids.

Methodology for Functionality Levels

During the period in 2013 when Lightyear was providing wireless service we offered HAC compatible handsets in all major price categories including low cost C level less than one hundred dollars as well as moderate cost B level ranging from one hundred to two hundred fifty dollars and high end feature rich A level greater than two hundred fifty dollars. Costs generally correlated with the number of features but if through experience Lightyear found that a certain handset contained features that worked well with hearing aids such as volume control the handset would be labeled accordingly with an A level for functionality. The sales staff was able to assist all existing and prospective customers looking for an HAC compliant handset. HAC compatible handsets vary in their inherent levels of functionality but typically at least one HAC compliant handset with features and services typical of its price category

could be found that meets each customer's price range.

Report Remarks

Lightyear Network Solutions LLC is no longer in business. The company is currently in the wind down process. This report covers the time period in 2013 through September 27, 2013 which is the effective date of the asset transfer from Lightyear to Birch Communications Inc. The FCC is aware of and has approved this asset transfer. This will be Lightyear's final HAC Report.

You have reported the following handset model summary information.

Total number of handsets offered: 31

Air Interface	Fully Hearing Aid Compatible		Acoustic Coupling Compatible Only		Non-Compliant Handsets		Excluded Handsets	Total by Air Interface
	Number	Percent	Number	Percent	Number	Percent	Number
